

Soil Mix for 4ft x 4ft x 1ft Deep Bed

Note: Total (per bed) cost for components at retail prices listed below approximately \$79.44 plus tax. Prices/products typically change with each shipment a store gets so this is just an approximation.

16 cu ft soil is needed for a 4ft x 4ft x 1ft deep bed. In the past, "16 cu ft" purchased components did not actually end up being 16 cu ft, so there is 2 cu ft extra added below for a total of "18 cu ft". You may use extra, if there is any, to top dress as your bed settles.

1 1/2 bags = 6 cu ft vermiculite

\$21.20 for a 4 cu ft bag at Farmers' CoOp in Nashville

1 compressed (3 cu ft) bale = 6 cu ft peat moss

\$11.98 for a 3 cu ft compressed bag at Lowe's in Texarkana, \$14.25 at Farmers' CoOp in Nashville;
